The return on investment with the CoAXium® Wheat Production System has proven to be three-fold:

- 1.** Serious grassy weed control that means more nutrients, water and sunlight for your wheat. Farmers can eliminate intercrop competition by spraying Aggressor® herbicide at the right time based on the specific weed at exact rates by crop growth stage.
- 2.** More, high quality wheat with less dockage and foreign matter.
- 3.** Unprecedented yield and gross revenue/acre.
